Material Handling Parts

U.S. Crane, Inc. offers parts and components for any and all brands of overhead cranes, hoists, and various material handling lifters and devices. We specialize in finding obsolete and hard to find parts with the ability to meet custom needs.

We understand how critical it is to provide our customers with the necessary part. If it's no longer available, we don't stop there. We find alternatives and offer custom solutions.

Installation

We know the importance of a quality and timely install. Proper installation methods are crucial and communication is key.

Bridge cranes, hoists, jib cranes, gantry cranes, runway systems, workstation cranes, fall protection, lifting devices, automation (PLC) systems, and electrification. We provide all necessary equipment and experienced technicians for a successful "turn-key" project.

Load Testing

Here at U.S. Crane, Inc. we provide load tests with certified weights on all equipment capacities. We perform our load tests with the necessary equipment and rigging for 100% rated capacity and up to 125% of capacity.

Load testing is required by OSHA law and we are here to make sure that your new installed, repaired, or rebuilt structure and/or device is in compliance.

Inspection Programs

U.S. Crane, Inc. offers comprehensive OSHA and preventative maintenance inspection programs for your overhead cranes and material handling equipment. We also offer sling and below-the-hook device inspections.

Our technicians and inspectors check critical electrical, mechanical, and structural components for safety and properly operating conditions to make sure you are in compliance.

Repair / Service

Our service technicians are available around the clock. When it is critical and an emergency breakdown, we offer **24/7** service to avoid any downtime and meet customer needs!

Our crew is continually adapting when it comes to servicing many brands. We take pride in being able to provide reliable service on all crane and hoist brands, and not limited to material handling equipment. We are here to get you back in operation.

Modernization

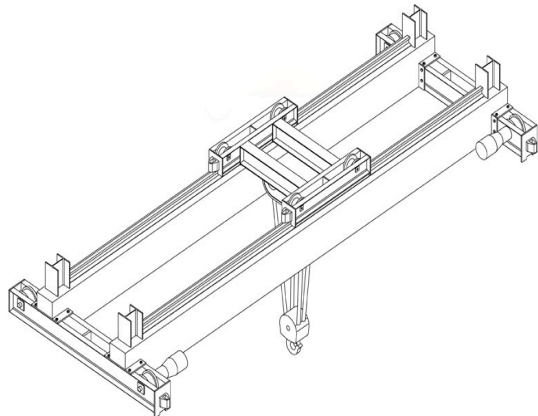

U.S. Crane, Inc. has the capability to upgrade, modernize, refurbish, retrofit, and modify your overhead crane, lifting equipment, controls, electrification, and more.

We understand the improvements with technology today and with our expertise we feel it is essential to pass that on to our customers. We provide these services both at your facility and/or at our facility.

Bridge Cranes

We offer quick turnaround time on quotes for standard or custom cranes. Lead times may vary depending on type and customization. Regardless, we strive to deliver on time and as promised. At U.S. Crane, Inc. we offer solutions and engineering capabilities for all different types and makes depending on your duty cycle. We will design the crane fit for your application to ensure reliable and long-lasting operation. Types we offer:

- Single Girder
 - Top Running
 - Under Running
- Double Girder
 - Top Running
- Overhead Crane Kits
- Box Girder
- Cab Driven
- Corrosion Resistant Options
- Specialty Options
- Custom Options

Jib Cranes

A jib crane is often used in industrial facilities in a certain area where common and repetitive lifts are made. We offer quick turnaround time on quotes for standard or custom jib cranes. Lead times may vary depending on type and customization with quick-ship options available. Regardless, we strive to deliver on time and as promised.

Types we offer:

- Freestanding
- Foundationless
- Mast Type
- Wall Mount/Column Mount
 - Tie-Rod
 - Cantilever
- Wall Traveler
- Articulating
- Motorized
- Portable
- Telescopic
- Special/Custom Options

Gantry Cranes

A gantry crane is often incorporated in industrial facilities where an overhead crane system is NOT needed or when it is needed under an existing overhead bridge crane system. We offer quick turnaround time on quotes for standard or custom gantry cranes. Lead times may vary depending on type and customization with quick-ship options available. Regardless, we strive to deliver on time and as promised.

Types we offer:

- Full Gantry
- Semi-Gantry
- Single Girder
- Double Girder
- Portable/Adjustable
 - Steel
 - Aluminum
- Stationary
- Motorized
- Special/Custom Options

Runway Systems

If you are in need of an overhead crane runway system. We offer quick turnaround time on quotes for all runway systems, no matter the complexity. Lead times may vary depending on type, length, and customization. Regardless, we strive to deliver on time and as promised. At U.S. Crane, Inc. we design and engineer using CAD systems so that your crane runway system is in accordance to all standards. Giving you the efficient system you needed and the longevity that you had hoped for. We offer the following:

- Freestanding Runway System
- Curved Track Runway System
- Modifications to Existing Runway
- Upgrades to Existing Runway
- Crane Additions to Existing Runway
- Runway Rail Alignment
- Runway Rail Study

Workstation Cranes

A workstation crane, also known as freestanding cranes are often used in smaller areas throughout manufacturing and production facilities to improve productivity and safety. With the purpose of lifting and moving loads across distances within a workspace. These cranes also have the flexibility to add multiple bridges, curves, and transfers. Typically ranging from 1/8 ton to 3 ton capacities. We offer quick turnaround time on quotes for standard or custom workstation cranes. Lead times may vary depending on type and customization. Regardless, we strive to deliver on time and as promised. Types we offer:

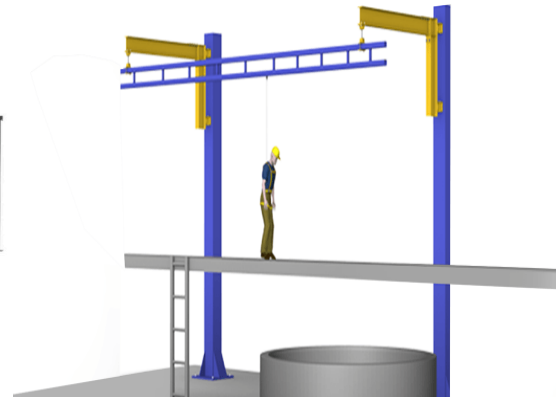

- Freestanding
- Ceiling Mount
- Monorail
- Enclosed Track
- Telescopic
- Special/Custom Options

Fall Protection

Here at U.S. Crane, Inc. we know the importance of safety. That is why we offer a variety of fall protection systems to reduce the risk of injury when working in elevated environments or over the top of large equipment. We offer quick turnaround time on quotes for standard or custom systems. Lead times may vary depending on type and customization. Regardless, we strive to deliver on time and as promised. Types we offer:

- Bridge System
- Freestanding
- Ceiling Mount
- Monorail
- Jib Swing Arm
- Fold Away System
- Portable
- Gantry
- Single Pole
- Mobile
- Special/Custom Options

Parts, Accessories, & Hoists

At U.S. Crane, Inc. we stock an inventory of diverse parts and accessories for a variety of different crane and hoist brands. We find obsolete and hard to find parts with the ability to meet custom needs. If a part is not in our stock, we strive to source it for you same day or next day from a warehouse nearby. If it's no longer available, we don't stop there. We find alternatives and offer custom solutions.

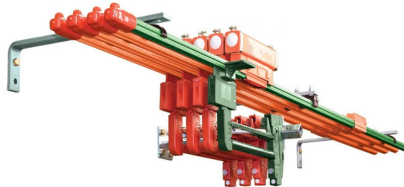

We consider ourselves a quick, reliable source for all equipment parts in the material handling industry and we understand the importance of minimizing downtime. That is why we promise to do everything in our ability to prevent the downtime being any longer than it should.

Available in all brands, styles, and sizes. Visit our website, call, or email today for additional specs or questions.
